

PRIVACY STATEMENT

Brussels, March 2020

Thank you for your interest in taking part in this survey by the European Public Health Alliance and the European Public Health Association, to collect information about the levels of awareness about the new opportunities for health as a result of changes to the EU's Common Agricultural Policy and new Farm to Fork strategy.

In addition to your opinion, we also want to collect the name of your organisation and country where you are based, to understand the extent to which public health actors are being involved in the process of drawing-up national CAP strategic plans.

In any resulting report or other outputs, we will anonymise this information. The information will be retained for one year, while the project is ongoing, and then destroyed.

We only ask for your contact details should you wish to receive follow-up information about further developments in EU food and agricultural policies, such as updates or activities or events we think you might be interested in related to this policy area. Your data will be managed by the European Public Health Alliance and you will be able to update your mailing preferences or unsubscribe from our mailing list at any time. We respect your privacy and will not sell or share your data with any third parties. If you have any questions, please contact Rosemary Hindle at rosemary@epha.org

By completing the survey, you agree that we can process your data in accordance with this policy.
