Revision of EU legislation on Food Information to Consumers

Fields marked with * are mandatory.

Introduction

Target Group
All EU and non-EU citizens and stakeholders are welcome to contribute to this consultation.

Objective of the consultation
The public consultation aims to collect the views of citizens, professional and non-professional stakeholders about proposals for the revision of Regulation (EU) No 1169/2011 on the provision of food information to consumers (FIC Regulation) in the following areas: Front of pack nutrition labelling/ Nutrient profiling, Origin labelling, Date marking and Alcoholic beverage labelling.

The proposed revision to the FIC regulation
The European Commission adopted the “Farm to Fork Strategy for a fair, healthy and environmentally-friendly food system” on 20 May 2020, as part of the European Green Deal. This strategy aims to reduce the environmental and climate footprint of the EU food system and facilitate the shift to healthy and sustainable diets. The strategy targets the entire food chain and describes, amongst others, the need to stimulate sustainable food processing and reformulation, to further empower consumers through labelling information and to reduce food waste. The proposed revision of the FIC Regulation will address this need by considering:

- Front of pack nutrition labelling and nutrient profiling criteria to restrict claims: a proposal for EU harmonized and mandatory front-of-pack nutrition labelling and for the setting of ‘nutrient profiling’ criteria, which are thresholds of nutrients above or below which nutrition and health claims on foods are restricted.
- Origin labelling: An extension of mandatory origin indications to certain products.
- Date marking: A revision of the EU rules on date marking (‘use by’ and ‘best before’).

The European Commission adopted the Europe’s Beating Cancer Plan on 3 February 2021. One of its areas of action concerns sustainable cancer prevention, including by reducing harmful alcohol consumption. The proposed revision of the FIC Regulation will address this concern by considering:

- Alcoholic beverage labelling: The introduction of mandatory indications of the list of ingredients and the nutrition declaration for all alcoholic beverages.
Where are we in the process of revising the FIC Regulation

Inception Impact Assessments for the above-stated FIC Regulation revisions were published for public consultation between 23 December 2020 - 04 February 2021 (for nutrient profiles and front-of-pack nutritional labelling, origin labelling and date marking), and 24 June 2021 - 22 July 2021 (for alcoholic beverage ingredient and nutrition declaration labelling). Feedback from these consultations has been used to further refine understanding of the problems and potential policy options and their impacts.

The European Commission will base its revision of the FIC Regulation on a full impact assessment of the different options. The impact assessment will also consider the setting of nutrient profiles as provided in Regulation (EC) No. 1924/2006 on nutrition and health claims made on foods.

This Public Consultation will contribute to the evidence that will inform the impact assessment for the revision of the FIC Regulation. It is part of a broader consultation strategy. Additional consultation activities will include targeted surveys and interviews with stakeholder organisations and Member State Authorities, to gather more detailed and technical information. A FIC Regulation proposal is expected to be made by the end of 2022.

How to contribute

Your views are important. Please tell us what you think and fill in the online questionnaire. The questionnaire includes questions on:

- Front-of-pack nutrition labelling and the setting of nutrient profiles to restrict the use of claims on foods – Questions 1 to 5
- Alcoholic beverage labelling (list of ingredients and nutrition declaration) – Questions 6 to 9
- Date marking – Questions 10 to 14
- Origin labelling – Questions 15 to 20

The questionnaire for citizens is accessible in all official EU languages. As there may be delays in translating replies submitted in some languages, contributions in English are welcome, as they will help to process the survey more swiftly.

You can pause at any time and continue later. Once you have submitted your answers, you will be able to download a copy of your completed questionnaire. Questions marked with an asterisk (*) are compulsory.

Those who are interested have the option to develop their responses in a more detailed manner.

Please note that in this questionnaire, we do not intend to obtain data relating to identifiable persons. Therefore, in case you will describe a particular experience or situation, please do it in a way that will not allow linking to a particular individual, whether it is you or somebody else.

Received contributions will be published on the Internet. It is important that you read the specific privacy statement attached to this consultation for information on how your personal data and contribution will be dealt with.

The Commission will publish all contributions to this public consultation. You can choose whether you would prefer to have your details published or to remain anonymous when your contribution is published. **For the purpose of transparency, the type of respondent (for example, ‘business association’, ‘consumer association’, ‘EU citizen’) country of origin, organisation name and size, and its transparency register number, are always published. Your e-mail address will never be published.** Opt in to select the privacy option that best suits you. Privacy options default based on the type of respondent selected.

**Contribution publication privacy settings**

The Commission will publish the responses to this public consultation. You can choose whether you would like your details to be made public or to remain anonymous.

- **Anonymous**
  
  Only organisation details are published: The type of respondent that you responded to this consultation as, the name of the organisation on whose behalf you reply as well as its transparency number, its size, its country of origin and your contribution will be published as received. Your name will not
be published. Please do not include any personal data in the contribution itself if you want to remain anonymous.

**Public**

Organisation details and respondent details are published: The type of respondent that you responded to this consultation as, the name of the organisation on whose behalf you reply as well as its transparency number, its size, its country of origin and your contribution will be published. Your name will also be published.

☑️ I agree with the [personal data protection provisions](#)

### Information on your organization

If you are a food business or representative of food businesses, please indicate the following (if this does not apply to you, please select 'not applicable'):

* **What is the geographic scope of your business / members’ markets?** (If this does not apply to you, please select ‘not applicable’)
  - [ ] Single EU Member State/ EEA country
  - [ ] Multiple Member States (including EEA countries) / Pan-EU
  - [ ] International
  - ☑️ Not applicable

* **Which stage(s) of the value chain is your business / are you members’ businesses active in?** Please select all that apply (if this does not apply to you, please select ‘not applicable’).
  - [ ] Primary producer (e.g. farming, fishing)
  - [ ] Manufacturers/processing
  - [ ] Distribution
  - [ ] Retail
  - [ ] Not applicable

* **Which food/beverage product groups is your business active in / does your organization represent?** Please select all that apply (if this does not apply to you, please select ‘not applicable’).
  - [ ] Meat and meat products
  - [ ] Fish and seafood products
Fruit and their products
Vegetables and their products
Vegetable and animal oils/fats and spreadable fats
Milk
Dairy products
Bakery products
Cereal and cereal products including biscuits and breakfast cereals
Confectionary products, ice cream
Ready meals, soups, sandwiches
Soy based and similar vegetable protein-based products
Beverages - wine or aromatized wine products
Beverages - beers
Beverages - spirit drinks
Beverages - other alcoholic beverage's
Beverages - non-alcoholic beverages
Other food products
Not applicable

Interest in the FIC Regulation revision

*Which FIC Regulation topics are you interested in? Please select all that apply.

- Front-of-pack nutrition labelling and the setting of nutrient profiles to restrict the use of claims on foods – Questions 1 to 5
- Alcoholic beverage labelling (list of ingredients and nutrition declaration) – Questions 6 to 9
- Date marking – Questions 10 to 14
- Origin labelling – Questions 15 to 20

Front of pack nutrition labelling and setting nutrient profiling criteria to restrict claims

Under the current EU rules, the indication of simplified nutrition information on the front of the food packaging ("front-of-pack") is possible on a voluntary basis. Several formats are legally possible under certain conditions and are currently present on the EU market. The European Commission is considering harmonised mandatory front-of-pack nutrition labelling for pre-packed foods present on the EU market.

Products may bear nutrition claims (such as "low fat", "high fibre") and health claims (such as "Vitamin D is needed for the normal growth and development of bone in children"). The European Commission is
Question 1: To what extent do you agree with the following statements:

<table>
<thead>
<tr>
<th>Statement</th>
<th>1 - Strongly disagree</th>

<tr>
<td>* Front-of-pack nutrition labelling is an appropriate tool to incentivise food businesses to improve the nutritional content of their products.</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>* Health and nutrition claims on food products should only be allowed if they meet some nutritional quality (e.g. levels of salt, sugars,...).</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Question 2: In your opinion, how likely is each of the following options to encourage consumers to change their food purchasing behaviour?
* Information on the amounts of specific nutrients (fat, saturated fat, sugars, salt) and on the energy value in a portion of the food, as well as how much this represents as a percentage of the daily reference intake.

Example:

![Nutrient Information Diagram](image)

Per 25g:
- **Energy**: 586 kJ / 140 kcal
  - 7%* of an adult's reference intake (8,400 kJ / 2,000 kcal)
- **Fat**: 11.3 g
  - 16%* of the daily reference intake
- **Saturates**: 3.0 g
  - 15%* of the daily reference intake
- **Sugars**: 6.1 g
  - 7%* of the daily reference intake
- **Salt**: 1.4 g
  - 23%* of the daily reference intake

Per 100g:
- **Energy**: 2343 kJ / 560 kcal

* Information on the amounts of specific nutrients (fat, saturated fat, sugar, salt) and on the energy value in a portion of the food, as well as how much this represents as a percentage of the daily reference intake. Colours are used to classify those nutrients per 100 g of the product as ‘low’ (green), ‘medium’ (amber) or ‘high’ (red).

Example:

![Nutrient Information Diagram](image)

* Typical values (as sold) per 100g: 697 kJ / 167 kcal
Information on a product’s overall nutritional value (based on the integration of both unfavourable elements (sugars, saturated fat, salt and calories) and favourable elements (protein, fibre and content of fruits, vegetables, pulses, nuts and olive /rapeseed/walnut oils)) through a graded indicator that can be applied on all products. Colours and letters are used to classify the overall nutritional value of the product, from ‘highest nutritional value’ (dark green, A) to ‘lower nutritional value’ (dark orange, E).

*Example:*  
![Image of a grading system with letters from A to E.]

- Information on a product’s overall nutritional value through a positive (endorsement) logo that can be applied on foods that comply with specific nutritional criteria only. The criteria can be based on e.g. amount of fat, saturated fat, sugars, salt, fibre, wholegrain, fruit and vegetables depending on the food category and the specific label.

*Example:*  
![Image of a positive (endorsement) logo.]

- A combination of the above options: information on the overall nutritional quality of a product combined with information on the content of specific nutrients.

<table>
<thead>
<tr>
<th>Question 3: In your opinion, how likely is each of the following options to encourage businesses to improve the nutritional aspects of their products?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Information on the amounts of specific nutrients (fat, saturated fat, sugars, salt) and on the energy value in a portion of the food, as well as how much this represents as a percentage of the daily reference intake.</td>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
**Question 5:** If you would like to raise other issues pertinent to the issues of front of pack nutrition labelling and the setting of nutrient profiling criteria to restrict claims, please provide details below.

*1000 character(s) maximum*

EPHA supports the considerations made to this consultation by the European Heart Network (EHN) in its submission.

If you wish to provide additional information relevant to front of pack nutrition labelling and the setting of nutrient profiling criteria to restrict claims (for example a position paper or evidence report) or raise specific points not covered by this questionnaire, you can upload your additional document here. The maximum file size is 1 MB. Provision of a document is optional and serves as additional background reading to help us understand your position better.

Only files of the type pdf,txt,doc,docx,odt,rtf are allowed

4dd1a4fa-a8af-4e2e-b768-f1fac671bbdb/fop-labelling-road-map-epha-response-02-2021.pdf

**Alcoholic beverage labelling**

*While the FIC Regulation provides that prepacked foods have to bear a list of ingredients and a nutrition declaration on labels, it currently exempts alcoholic beverages containing more than 1.2% by volume of alcohol from this.*

*The forthcoming revision of the Common Market Organisation (CMO) Regulation should lead to the introduction of rules governing the labelling of wine ingredients and nutrition declaration. These rules might be further amended through the proposed revision of the FIC Regulation. The same applies to aromatized wine products regulated by Regulation (EU) No 251/2014 which is also under review in the framework of the Common Agricultural Policy (CAP) Reform.*

*Under the FIC revision, the Commission is considering revoking the current exemption applicable to alcoholic beverages containing more than 1.2% by volume of alcohol and requiring them to include a list of ingredients and a nutrition declaration (i.e. table providing energy, protein, fat, saturated fat, carbohydrates, sugars and salt).*

**Question 6:** To what extent do you agree with the following statements:

<table>
<thead>
<tr>
<th>1 - Strongly disagree</th>
<th>2 - Disagree</th>
<th>3 - Neutral</th>
<th>4 - Agree</th>
<th>5 - Strongly agree</th>
<th>Don't know</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>A list of ingredients and nutritional information should be provided to consumers for alcoholic beverages as is the case for other foods and beverages.</em></td>
<td><img src="#" alt="Circle" /></td>
<td><img src="#" alt="Circle" /></td>
<td><img src="#" alt="Circle" /></td>
<td><img src="#" alt="Circle" /></td>
<td><img src="#" alt="Circle" /></td>
</tr>
</tbody>
</table>
The type of information provided to consumers should be the same for all categories of alcoholic beverages (e.g. beers, wines, spirit drinks,...).

Consumers should have access to the same information for alcoholic beverages across the whole EU.

Food businesses should be subject to the same labelling rules for alcoholic beverages across the whole EU.

Food business operators voluntarily provide sufficient information to consumers on the ingredients of alcoholic beverages.

Food business operators voluntarily provide sufficient information to consumers on the nutritional content of alcoholic beverages.

Food business operators voluntarily provide sufficient information to consumers on the energy value of alcoholic beverages.

Information on alcoholic beverage ingredients and nutritional content could be provided ‘on label’ or ‘off label’. If provided ‘off label’ then a QR code would be included ‘on label’. The QR code would take the consumer to a website where they can access the list of ingredients and information on nutritional content.

**Question 7:** How do you think the information on nutritional content and ingredients should be provided to consumers? Please select one option for each information type.

<table>
<thead>
<tr>
<th></th>
<th>On-label</th>
<th>Off label accessed via a QR code</th>
<th>No need for such information</th>
<th>No opinion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full nutrition declaration (energy value, fat, saturates, carbohydrate, sugars, protein and salt)</td>
<td>✔️</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Nutrition declaration only on energy value (Kcal/KJ)</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>--------------------------------------------------</td>
<td>---</td>
<td>---</td>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>* List of ingredients</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Question 8:** If the list of ingredients and the nutrition declaration were provided to consumers off label, accessed using a QR code provided on the label, to what extent do you agree with the following statements:

<table>
<thead>
<tr>
<th>1 - Strongly disagree</th>
<th>2 - Disagree</th>
<th>3 - Neutral</th>
<th>4 - Agree</th>
<th>5 - Strongly agree</th>
<th>Don’t know</th>
</tr>
</thead>
<tbody>
<tr>
<td>* Consumers have the equipment (mobile phone and internet connection) to access the off-label information through the QR code when buying alcoholic beverages.</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
</tr>
<tr>
<td>* Consumers will make use of the off-label information when buying alcoholic beverages.</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
</tr>
<tr>
<td>* Consumers pay the same attention to the nutritional declaration and the list of ingredients when they are provided on the label or when it is provided through a QR code.</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
<td>![ ]</td>
</tr>
</tbody>
</table>
The provision of information on the nutritional declaration and the list of ingredients via a QR code, redirecting to a website, is as reliable as the provision of the same information on labels.

**Question 9:** If you would like to raise other issues pertinent to the issues of alcoholic beverage labelling, please provide details below.

*1000 character(s) maximum*

EPHA endorses the response by the European Alcohol Policy Alliance (Eurocare) to this question.

If you wish to provide additional information relevant to alcoholic beverage labelling (for example a position paper or evidence report) or raise specific points not covered by this questionnaire, you can upload your additional document here. The maximum file size is 1 MB. Provision of a document is optional and serves as additional background reading to help us understand your position better.

*Only files of the type pdf,txt,doc,docx,odt,rtf are allowed*

**Additional contributions**

If you would like to raise other issues pertinent to the topics covered in this consultation, please provide details below.

*3000 character(s) maximum*

If you wish to provide additional information (for example a position paper or evidence document) or raise specific points not covered by this questionnaire, you can upload your additional document here. The maximum file size is 1 MB. Provision of a document is optional and serves as additional background reading to help us understand your position better.
