Report: Places and Spaces: Environments and children's well-being

Unicef

Report Card 17 explores how 43 OECD/EU countries are faring in providing healthy environments for children. Do children have clean water to drink? Do they have good-quality air to breathe? Are their homes free of lead and mould? How many children live in overcrowded homes? How many have access to green play spaces, safe from road traffic?

Research Developments

Article series on structural racism and mental health disparities

American Journal of Psychiatry

Individuals of color and other minoritized groups disproportionately face interpersonal, societal, and environmental stressors that increase their risk to develop psychiatric disorders, and these factors also impede access to mental health care.

Racism in healthcare: a scoping review

BMC Public Health

Racism constitutes a barrier towards achieving equitable healthcare as documented in research showing unequal processes of delivering, accessing, and receiving healthcare across countries and healthcare indicators. This review summarizes studies examining how racism is discussed and produced in the process of delivering, accessing and receiving healthcare across various national contexts.

Roma refugees who fled from Ukraine to Moldova are now in limbo

National Public Radio

Angelina Leonidovna Kovach decided to leave the Ukrainian city Kharkiv in the second week of March, emerging from her basement refuge into a country under fire. She crossed from Ukraine into neighboring Moldova with a group of her relatives — all members of Ukraine's Roma minority.

Young Roma and Traveller women of today are the leaders and influencers of tomorrow

Making progress towards greater inclusion of Roma and Traveller women and girls is not only a human rights imperative, it is a key component of how countries can respond to the challenges they face. Mainstream society and states need to see young Roma and Traveller women and girls not as a threat or a burden, but as a huge untapped potential. This approach will support more vibrant young women to be part of diverse societies and to contribute to their development.

OPEN SOCIETY
FOUNDATIONS

The Open Society Foundations to Invest in a European Roma Foundation

For the past 30 years, the Open Society Foundations have been the main private champion of efforts to support Europe's 12 million Roma communities. Over three decades, the Foundations have supported the fight for equality and the political participation of Europe's largest and most resilient minority group that still experiences the worst exclusion on ethnic grounds unacceptable in 21st century.

Other News

Opinion - A prescription for the government: tackle child poverty to help address health inequalities

While the package of financial support delivered by the UK chancellor Rishi Sunak last week gives many families room to breathe, it won't touch the sides of child poverty. The lifelong implications of growing up in poverty are significant, both for the individual and in costs to society.

Joint Statement on Ukraine: Worsening of Health Inequalities

EPHA and Others

We are particularly concerned about the accompanying widening of health inequalities, disproportionately impacting disadvantaged and vulnerable groups, including ethnic minorities, low socio-economic groups, and the homeless, who have little to no resources and who are impacted most.
