

# Public Consultation - EU funding for competitiveness

Fields marked with \* are mandatory.

## Introduction

---

In 2025, the European Commission will put forward a comprehensive proposal for the next long-term budget – the multiannual financial framework (MFF). This includes EU funding providing financial support to hundreds of thousands of beneficiaries, including research and technology organisations, small and medium /sized businesses, startups and scale-ups, educational and research institutions, industry clusters, and many others.

Today, EU funding in support of competitiveness is spread over too many overlapping programmes, many of which fund the same thing but with different requirements and difficulties in combining funding effectively, which hinders access to EU funding and limits the impact that the funding can have.

As highlighted in President von der Leyen's Commission's [Political Guidelines](#), as well as in the [Competitiveness Compass](#), the Commission will work on a simpler, more focused and impactful MFF that reflects the European strategic priorities (with the ambition of being an “investment-focused Commission”),

The guidelines also announced the creation of a European Competitiveness Fund, as part of the proposal for the next MFF. As set out in the Competitiveness Compass, this investment capacity should channel investment in strategic technologies along the entire investment journey, from research, through scale-up, industrial deployment, to manufacturing – using the power of the EU budget to de-risk and mobilise private investment for our common goals.

The Commission's proposal for the next MFF will be focused on the things that matter most, in areas where the EU can achieve more than Member States acting alone. This requires a careful assessment both of what has worked well in the past and what could be improved in the future. The next MFF will draw lessons from the current budget – notably in terms of simplicity and flexibility, speed and strategic focus.

As an integral part of the process, the Commission is launching a series of public consultations to gather views from all interested parties on the future EU budget. This consultation covers EU funding in support of EU competitiveness. The decision to cluster issues serves to support the preparatory work and does not pre-empt the architecture of future programmes. This questionnaire consists of 3 parts:

Part 1 collects some information about you Part 2 contains questions related to EU funding for competitiveness. Part 3 comprises 2 closing questions.

Your feedback will inform the analysis of the impact assessment for the European Competitiveness Fund. You can save your replies as a draft and finish later. Please be concise in those questions with a free text box for additional comments. If you want, you can also upload a document with your views at the end of the survey.

Please describe what you consider to be the key challenges in this procedure

500 character(s) maximum

Huge time investment with low proposal success rate. Cumbersome application process that can be simplified with sometimes unclear descriptions of the template sections. Once funded, the process for amendment is rigid and complex to respond adequately to changing circumstances. Often a mismatch between outputs and policy expectations. Due to uncertainty, it's difficult to align the hiring process with funding applications. Reporting process can be streamlined, reporting frequency can be reduced.

## **Part 2. EU funding on Competitiveness**

The Commission has preliminarily identified the following challenges linked to competitiveness. How important are these challenges in your view?

	Very important	Important	Moderately important	Not important	No opinion
The innovation and technological gap for the EU in strategic technologies, with respect to key competitors globally	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Underinvestment in research and innovation	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Disparities in innovation and industrial capacity across Member States	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Lack of fertilisation between civil and military research and development	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Insufficient innovation and manufacturing capacity for strategic technologies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Insufficient focus of EU funding on EU strategic priorities	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Lack of coherence between EU, national and regional policies for competitiveness	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Climate resilience and costs associated with decarbonisation	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Excessive dependence of the EU on non-EU countries for critical inputs, raw materials and strategic technologies	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Access to finance for small businesses and for scale-up companies from research to manufacturing	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Attracting world class researchers, skilled workers and entrepreneurs from abroad	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Incapacity to translate innovation into marketable technologies, and failure to integrate these technologies into the EU's industrial base	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Mismatch between skills and labour market demands	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Digitalisation and diffusion of advanced technologies in key sectors	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Insufficient private investment, including by institutional investors	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Challenges related to the effective protection of EU funds against fraud, corruption and other illegal activity	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

### Part 3. Closing questions

If you would like to add further information – within the scope of this questionnaire – feel free to do so here.

To ensure competitiveness, the EU should ensure that ambitious investments supporting public health and health systems are made. Health is an investment and should be considered as such, not as a cost. Studies have shown that every euro invested in health generates, on average, an economic return of 14 euros. Urgently addressing current challenges, including noncommunicable diseases, cross-border health threats, and health workforce shortages should remain a top priority for the next financial cycle. Particularly, investing in health systems is paramount to support wellbeing and healthy societies. This includes preparing but also adapting health systems to the increasing demand of care due to climate change and other global health threats. Regarding the workforce, the focus should be on addressing training needs and improving working conditions. In addition, health civil society organisations should be supported financially in a sustainable way, through a strong EU4Health programme, to be able to support its implementation.
